Abstract:

COMSATS Literary Society is one of the distinct societies of COMSATS Institute of Information Technology. This is the only society that is improving its quality with the use of I.T. Now, students would be able to register their selves online.

Problem Statement:

Students are facing problems while registering their self for the society. Students have not enough time to go and find the paper to fill it and then submit it to the respected person after finding that person.

Solution:

Online Registration is solution for this problem. Students would be able to register their selves when they have time and there is also no wastage of pens and paper for the registration. That's the purpose of this Project.
